

Copper earthing tape is used to ground ESD matting, polishes and paint. The tape is normally laid in strips 4 to 8 metres apart, across the full width of floor, under the floor covering, and then connected to earth protective ground.

Properties:

Width:	19mm
Length:	50m
Thickness:	0.15mm
Ahesive:	Solvent Acrylic
Tensile Strength:	25 N/25mm
Peel Adhesion:	25N/25mm
Continuous Temperature Range:	-20 to +150°C
Minimum Application Temperature:	+15°C
Self-Adhesive	With release paper backing

Unless otherwise noted, tolerance $\pm 10\%$
 Specifications and procedures subject to change without notice.
