

DENTAL LABORATORY DUST AND FUME EXTRACTION SOLUTIONS

DentalPRO Xtract 300

DUST AND FUME EXTRACTION CABINET

FOR MULTIPLE HAND FINISHING

DENTAL LABORATORY APPLICATIONS.

BOFA's DentalPRO Xtract 300 dust and fume extraction dental cabinet is designed for the effective removal of potentially harmful dust and fumes generated during dental hand finishing or Monomer mixing applications.

This unit is ideally suited to manual bench top applications and provides technicians the flexibility to work without restriction in the knowledge that dust particles and fumes are being effectively removed to maintain a safe working environment.

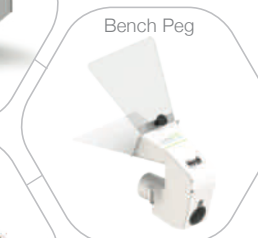

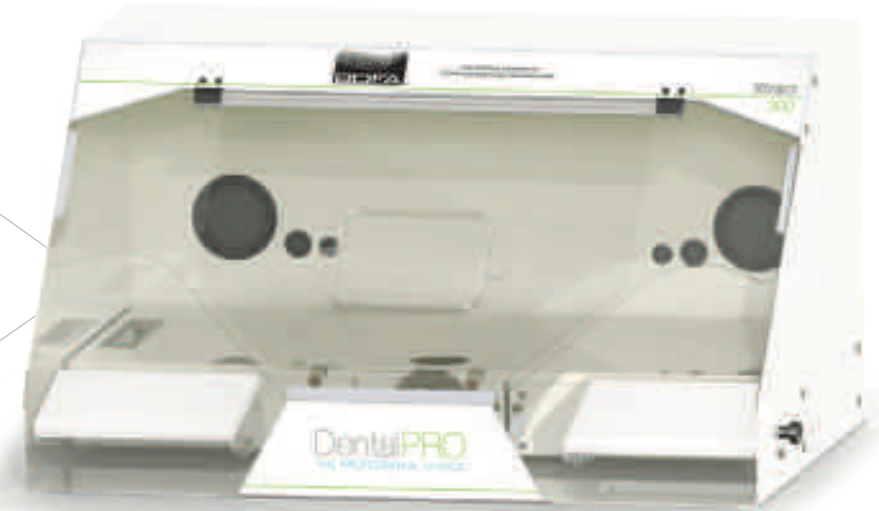

This system combines maximum technician protection in one compact unit, with scalable and flexible options with different accessories, lighting and internal storage.

STANDARD FEATURES:

- Easily replaced screen protector ensures clear visibility at all times
- Internal storage trays
- Padded arm rests
- Internal LED lighting
- Rear entry grommets for mains powered hand finishing units
- Interchangeable accessories
- Removable collection tray
- Strong rigid construction
- Powder coated white

OPTIONAL FEATURES:

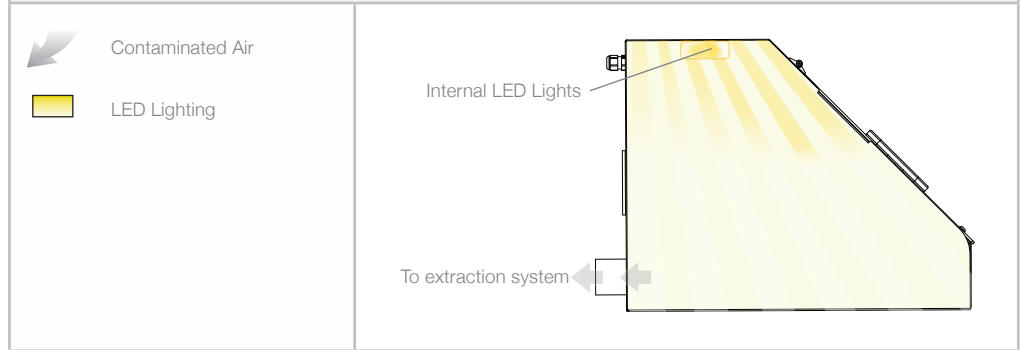

- Internal bench peg
- Internal saw table
- DentalPRO 400 filtration system
- DentalPRO Mono filtration system
