

Snaps and Pres-N-Snap Tool

Made in the
United States of America

Snaps are used to connect a ground cord to a static mat. Grommet and Clinch Style snaps are attached with a Pres-N-Snap. Nickel plated brass snaps provide electrical connection and a long service life.

SNAPSOCKET3/8:

- 3/8" (10 mm) Female Snap Grommet Style

Socket snaps are held in place by crimping the tip of an eyelet through the center of the socket with a snap tool. This traps the mat between the socket on the top of the mat and the eyelet on the back of the mat. 10 sockets and eyelets are included in each pack.

SNAPSOCKET3/8

| Item | Description |
|----------------------------------|---------------------------|
| SNAPSOCKET3/8 | 3/8" Female Socket |
| 3033 | 3/8" Male Stud and Eyelet |
| PRES-N-SNAP TOOL | Snap Attaching Tool |

3033:

- Male Snap Fastener 0.125" Hole

Stud snaps are held in place by crimping the tip of an eyelet through the center of the stud with a snap tool. This traps the mat between the stud on the top of the mat and the eyelet on the back of the mat. 10 studs and eyelets are included in each pack.

3033

PRES-N-SNAP TOOL:

- For attaching Grommet Style snaps
- Versatile and easy to use
- Capable of setting numerous brands of fasteners simply by changing the dies

Pres-N-Snap Tool Instructions

1. Press the eyelet through the mat from the back. (A utility knife or phillips screw driver can be used to make a hole.)
2. Place the socket or stud on top of the eyelet

Specifications and procedures subject to change without notice.
